- ***Do you struggle to face your own mortality?***
- ***Are you troubled by the loss of a loved one?***

In a world where many have come to believe that there is nothing after life ends, *Glancing at Heaven* provides convincing evidence to the contrary. Scientific research, writings of the saints, and personal experiences with the elderly and dying are presented. The talk shares the reality of eternal life and a common sense approach of being hopeful when grieving or confronting your own mortality. Tina's presentation inspires a well-founded hope that heaven is for real.
